POLICE DEPARTMENT VILLAGE OF TARRYTOWN

(914) 631-5546

John Barbelet
Chief of Police

Dear Community:

The Village of Tarrytown is and always has been a community that deserves the BEST. As your Chief of Police, I recognize the important role that "community" plays in fulfilling our obligation to protect life and property. Those families living in Tarrytown, those that work in Tarrytown, even those that travel through or frequent the many stores and shops here deserve the special hospitality that Tarrytown is known for, as well as our safety overall. In order to achieve this standard of excellence, we must work together as a community collectively, hand in hand. The Tarrytown Police Department believes strongly in community involvement, communication and public awareness as tools to help with crime prevention. We encourage every citizen to get involved and interact with your police department. Your contributions can range from reporting a crime in progress or suspicious activity to such basics as burglar-proofing your home and teaching family members how to stay safe when out in public places.

In these pages, you will find resources and important programs and services provided by the Tarrytown Police Department about protecting yourself, your home and your business. We offer some good ideas about home security, preventing business theft (including shoplifting), and precautions you can take to avoid identity theft and common fraud scams.

Everyone in law enforcement, and the Tarrytown Police Department in particular, constantly strives to improve our methods of crime prevention and detection. This involves education followed by implementation. We are well aware that our efficiency is at its best when we work as a team with local residents and business owners. Of course, the Tarrytown Police Department and other law enforcement agencies bear the primary responsibility for crime prevention, but our community has a fine tradition of doing its part as well. Together we believe we have an excellent partnership dedicated to preserving the safe community we all expect and deserve.

My thanks to the local merchants and police supporters in our community who, once again, stepped up and participated in our efforts to make Tarrytown a better place in which to live, work, visit and do business.

Sincerely,

John Barbelet
Chief of Police

TARRYTOWN POLICE DEPARTMENT

Warning of Pervasive Telephone Scam

The Internal Revenue Service has issued another strong warning for consumers to guard against sophisticated and aggressive phone scams targeting taxpayers, including recent immigrants, as reported incidents of this crime continue to rise nationwide. These scams won't likely end with the filing season so the IRS urges everyone to remain on guard.

The IRS will always send taxpayers a written notification of any tax due via the U.S. mail. The IRS never asks for credit card, debit card or prepaid card information over the telephone. For more information or to report a scam, go to www.irs.gov and type "scam" in the search box.

People have reported a particularly aggressive phone scam in the last several months. Immigrants are frequently targeted. Potential victims are threatened with deportation, arrest, having their utilities shut off, or having their driver's licenses revoked. Callers are frequently insulting or hostile - apparently to scare their potential victims.

Potential victims may be told they are entitled to big refunds, or that they owe money that must be paid immediately to the IRS. When unsuccessful the first time, sometimes phone scammers call back trying a new strategy.

Other characteristics of this scam include:

- Scammers use fake names and IRS badge numbers. They generally use common names and surnames to identify themselves.
- Scammers may be able to recite the last four digits of a victim's Social Security number.
- Scammers spoof the IRS toll-free number on caller ID to make it appear that it's the IRS calling.
- Scammers sometimes send bogus IRS emails to some victims to support their bogus calls.
- Victims hear background noise of other calls being conducted to mimic a call site.
- After threatening victims with jail time or driver's license revocation, scammers hang up and others soon call back pretending to be from the local police or DMV, and the caller ID supports their claim.

If you get a phone call from someone claiming to be from the IRS, here's what you should do:

- If you know you owe taxes or you think you might owe taxes, **call the IRS at 1.800.829.1040.** The IRS employees at that line can help you with a payment issue, if there really is such an issue.
- If you know you don't owe taxes or have no reason to think that you owe any taxes (for example, you've never received a bill or the caller made some bogus threats as described above), then call and report the incident to the Treasury Inspector General for Tax Administration at 1.800.366.4484.
- You can file a complaint using the **FTC Complaint Assistant**; choose "Other" and then "Imposter Scams." If the complaint involves someone impersonating the IRS, include the words "IRS Telephone Scam" in the notes.

Taxpayers should be aware that there are other unrelated scams (such as a lottery sweepstakes) and solicitations (such as debt relief) that fraudulently claim to be from the IRS.

The Tarrytown Police Department encourages all residents to be vigilant against phone and email scams that use the IRS as a lure. The IRS does not initiate contact with taxpayers by email to request personal or financial information. This includes any type of electronic communication, such as text messages and social media channels. The IRS also does not ask for PINs, passwords or similar confidential access information for credit card, bank or other financial accounts. Recipients should not open any attachments or click on any links contained in the message. Instead, forward the e-mail to phishing@irs.gov.

More information on how to report phishing scams involving the IRS is available on the genuine IRS website, **IRS.gov**.

If you get any such phone calls, hang up and notify the IRS and the **Tarrytown Police Department** immediately at **914-631-5544**.

Park with paybyphone

A new way to pay for parking in Tarrytown.

PayByPhone Information

PayByPhone lets you pay for parking in seconds. The app allows you to extend your parking session from anywhere and will even remind you when your parking session is about to expire! Parking with PayByPhone is convenient, easy and secure.

Please be aware that the Village of Tarrytown is adding an extra security enhancement to its PayByPhone parking system. Beginning Tuesday September 4, 2018 parkers will need to add their CVV number when paying for parking with PayByPhone in Tarrytown. The CVV code is the 3-digit number found on the back of your credit card.

Smartphone users can enter m.paybyphone.com on their browser, download the iPhone or Android app, or call **1-866-234-7275**.

Once you have registered for an account, you can park in 3 easy steps:

1. Enter the location number (posted on the PayByPhone signs in lots, or located on the meter when parking on-street)
2. Enter stall number (if required)
3. Select a parking duration

Frequently Asked Questions

Where can I download the app?

Any Apple or Android device can support PayByPhone and can be downloaded at: The Apple App Store • The Google Play store

How do I sign up?

Registration with a free PayByPhone account is required and can be completed via the mobile app (on iOS and Android devices), the web app at www.paybyphone.com, or by phone at 1-866-234-7275 (the account will be activated immediately and the parking session can be started on the initial phone call)

The next time you call or log on, your details will be automatically recognized. The following information is required to set up an account:

Mobile phone number • Credit Card (Visa, MasterCard, AMEX) • License plate of car(s)

What are the benefits?

No need for cash or coins

Text message reminders before your parking expires

Extend your parking session from the app or by calling 1-866-234-7275

View and print parking receipts online, or opt-in to emailed receipts

Stay warm by paying from the comfort of your car

How does the parking enforcement officer know I've paid by phone?

When you pay for parking by phone, your license plate and parking time are automatically displayed on the device used by the parking officer. Users do not need to display a receipt.

What if I get a parking ticket?

If you believe you have received a ticket in error, please contact the Tarrytown Village Justice Court. Instructions are on the back of the ticket. You can use your PayByPhone account to check payment status. Please print out copies to bring. They will not accept visual inspection of your phone as proof. Web page for Tarrytown Village Justice Court: <http://www.tarrytowngov.com/village-justice-court>

How do I add an additional vehicle to my account?

Adding a vehicle may be completed within the PayByPhone app, by going to paybyphone.com and logging into your account, or calling the parking line at 1-866-234-7275 and following the prompts. You may add up to nine vehicles.

Is it safe to do a credit card transaction on a mobile phone?

Yes. Your credit card number is encrypted when you sign up and is never entered, displayed, or spoken during a transaction.

When will I see the transactions on my credit card statement?

Each time you pay for parking with PayByPhone, the payment is processed in real-time. The amount of time that elapses before it shows up on your account will vary depending on your credit card company. Your charge will appear as "Pay By Phone Parking" on your credit card statement.

Can I get a receipt?

You can view all your transactions by logging onto your account at paybyphone.com. All parking charges can be printed off in the form of a receipt. Email receipts are available; select this optional feature on your profile.

PayByPhone can be found across Tarrytown in various lots and on-street locations. Location numbers for on-street locations can be found directly on the meter.

Abusive Relationships

THE CYCLE OF VIOLENCE...

Abuse:

Aggressive or violent behavior, which is a power play designed to show the victim "who is boss."

Guilt:

Guilt is felt afterwards; but it's about being caught and facing consequences, not what's been done to the victim.

Rationalization or excuses:

Rationalizations may include a string of excuses or blaming the victim for the abusive behavior ... anything to shift responsibility.

"Normal" behavior:

The goal: regain control and keep the victim in the relationship. The abuser may act as if nothing's happened, or turn on the charm.

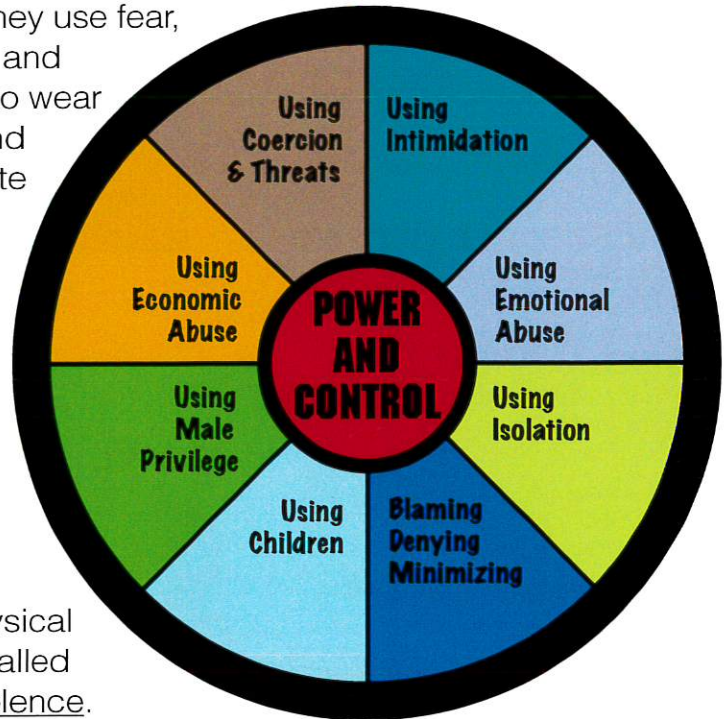

Fantasy and planning:

The abuser fantasizes about their spouse's wrongdoing and how he or she will be made to pay. Then a plan is made to turn the fantasy into reality.

Set-up:

A situation is created to set up the victim, where the abuser can "justify" his or her abuse.

Domestic abuse, also known as spousal abuse, occurs when one person in an intimate relationship or marriage tries to dominate and control the other person. An abuser doesn't "play fair." They use fear, guilt, shame and intimidation to wear you down and gain complete power over you. They may threaten you, hurt you, or hurt those around you. Domestic abuse that includes physical violence is called domestic violence.

**NO ONE
has the
right to
abuse
you!**

*If you suspect
someone is
being abused,
notify your
local police
department.*

For help and advice on escaping an abusive relationship, call
THE NATIONAL DOMESTIC VIOLENCE HOTLINE
1-800-799-SAFE (7233)

Sexual Assault

WHAT CAN I DO TO REDUCE MY RISK OF SEXUAL ASSAULT?

Do not leave your drink unattended or accept one from an open container while at a bar or club — drugs have been known to be passed this way

Be aware of your surroundings at all times

Do not allow yourself to become isolated with someone you do not know or trust

Travel with a companion whenever possible

Think about the level of intimacy you want in a relationship and clearly state your limits

IF YOU ARE THE VICTIM OF A SEXUAL ASSAULT:

Report the rape to law enforcement authorities.

When the rapist departs, contact help at once. Find a safe environment away from the attacker; if possible have a trusted friend stay with you for moral support.

- Do not shower or wash
- Preserve all clothing and the crime scene
- Be prepared to describe the attacker and anything else that may be helpful
- Get medical attention even if there are no visible injuries

Personnel experienced in sexual assaults will examine you and provide counseling and support

- Ask the hospital for a rape kit exam

**FEWER THAN 1/3
OF ALL ASSAULTS
ARE REPORTED
TO THE POLICE**

CARJACKING FACTS

Robbery Prevention

Imagine having a stranger walk up to you while you're sitting at a traffic signal, thrusting a gun in your face and taking your car away from you. Or worse, A STRANGER RUNS UP TO YOU AS YOU PULL INTO YOUR OWN DRIVEWAY, PULLS YOU OUT OF YOUR VEHICLE AND DRIVES AWAY IN IT. This is the crime called **CARJACKING**, and it can happen anywhere, not just in high crime neighborhoods. It can happen during the daytime as well as after dark. It can happen to you if you are in a shiny new sports car, or an old "clunker".

Why Carjack?

Parked cars, especially the newer models, are becoming more difficult to steal. Built-in alarm systems, kill switches and other theft deterrent devices are making parked cars less attractive to the inexperienced car thief. Car thieves find it much easier to steal a car while the key is in the ignition, and too many times they are able to catch the driver off guard.

There is no guarantee that you will not become a target, however, there are some COMMON SENSE PRECAUTIONS you can take to put the odds in your favor.

Before You Enter Your Vehicle

- ☐ Before you approach your vehicle, have your keys ready for entry. Scan the area around your vehicle as you approach. Always look into your rear seat or hatch area before entering your car to make sure no one is in it. If you see someone loitering around your vehicle, turn around and get help.
- ☐ Always park in a well lighted area.
- ☐ If you feel uncomfortable, have a security guard from the shopping center or another employee from work, walk you to your car.
- ☐ Ask for a security escort if you are alone at a shopping center.
- ☐ Don't park in isolated or visually obstructed areas near walls or heavy foliage.
- ☐ Use valet parking or an attended garage.

While You Are In Your Vehicle

- ☐ Always lock the doors and keep your windows up high enough so a potential jacker cannot get his/her hand or arm in the window.
- ☐ Observe your surroundings. Be conscious of any activity near your car. Carjackers pick on people who don't seem alert.
- ☐ When stopping in traffic, always keep a safe distance between you and the car in front of you. If you have to make a quick getaway, you will be able to turn your wheel and move without being boxed in.
- ☐ Avoid high crime areas whenever possible, especially after dark.
- ☐ Be suspicious of people approaching your car, asking for directions or handing out flyers.
- ☐ If a suspicious person approaches your car, drive away carefully.
- ☐ If another driver bumps your car, keep your doors locked and windows up. Call 9-1-1 from your cell. Drive to the nearest police or fire station, or well lighted, populated area.
- ☐ Be alert when using a drive-up ATM.
- ☐ If you suspect someone is following you, don't go home. Drive to the nearest police or fire station or well lighted, populated area for help.
- ☐ Don't be a target by turning your back while loading packages into the car.
- ☐ Beware of a Good Samaritan who offers to repair your car or a flat tire. It's okay to get help, just be alert. Wave to follow, and drive to a gas station or busy place before getting out.
- ☐ If you have a cell phone, call 9-1-1 for help.

Consider Your Safety If Actually Confronted By A Carjacker

- ☐ Don't reach for your personal items. Leave everything behind if forced from the car.
- ☐ Don't resist, especially if the thief has a weapon. Give up your vehicle with no questions asked and move away.
- ☐ Never agree to be kidnapped. Put as much distance between yourself and the carjacker as quickly as possible. Throw your keys as far as you can and run in the opposite direction, screaming for help.
- ☐ Call the police (9-1-1) immediately to report the crime and provide detailed information.

DO NOT STOP FOR ANY REASON!!

DIAL 9-1-1 AND REPORT WHAT YOU SAW BUT DO NOT SLOW DOWN!

If you are driving at night and eggs are thrown at your windshield, **DO NOT STOP TO CHECK THE CAR, DO NOT OPERATE THE WIPER**, and **DO NOT SPRAY ANY WATER** because eggs mixed with water become milky and can block your vision up to 92.5%, and you are then forced to stop beside the road and become a victim of these criminals.

This is a new technique used by gangs, so please inform your friends and relatives. These are unsavory individuals who will take desperate measures to get what they want.

Businesses Suffer Because of Crime

Shoplifting is estimated to occur between 330 to 440 million times per year.

Rate of loss is estimated between \$19,000 and \$25,000 stolen per minute.

There are things a business owner can do. If your store has aisles, place mirrors strategically so that an assigned person can see everywhere. Some stores use hidden (or visible) cameras which may prevent a theft or aid in prosecution. More expensive items are in locked cases or have devices affixed which will set off an alarm if not removed at point of sale. Large volume stores employ uniformed and / or plainclothes guards to discourage or apprehend shoplifters. Employee education is also part of the prevention.

The front-end cost seems prohibitive, but as shoplifting continues and shoplifters become more sophisticated to evade detection, the business owner has little choice but to do his / her best at prevention and to build the cost of security and loss into the prices charged. Community education is still the best answer, which includes teaching young people why crime is wrong...legally and ethically through school programs, parental guidance and cooperation with local authorities.

Shoplifting is a multi-billion dollar hidden tax on business owners and their customers.

Shoplifting is a Crime and Stores Will Prosecute.

**IF YOU GET CAUGHT,
YOU WILL BE
ARRESTED,
FINGERPRINTED
AND
JAILED**

Businesses Beware!

- ☐ Whenever possible, keep the cash register away from entrance of store.
- ☐ Do not block windows with posters, ads, etc.
- ☐ Maintain visibility into your business.

Place cameras inside and outside
by the entrance to your building.
This could reduce your insurance cost.

Home Security & Burglary Prevention

There is a burglary in the United States every 15.4 seconds

Burglars are for the most part opportunists. They tend to take the path of least resistance when looking for a home to invade.

Most home burglaries happen between the hours of 6:00 am and 6:00 pm. Think about that. This is when most of us are at work or out running errands. How often do you see, or more importantly notice a strange car or van in a neighbor's driveway or on the street. We usually think it is a friend of theirs or a worker they've hired such as an electrician or plumber.

And most of the time that is the case, so we think nothing of it and go about our business. Or we don't even notice it at all. This is something burglars take advantage of. In fact, 62% of burglaries happen during the daylight hours.

According to the Uniform Crime Reporting Program Crime Clock there is a burglary every 15.4 seconds. Protect yourself and your home from potential burglars. Burglars like to get in and get out as quickly as possible. So let's make them think twice about entering your home by making it more difficult for them.

Helpful Tips To Make Your Home Safer

- ☐ Put up an alarm system sign even if you don't have an alarm. This will make any burglar think twice about entering your home.
- ☐ Always keep your garage closed. Burglars will often drive through a neighborhood to seek potential targets. If there is anything valuable in your garage, you may be their next target.
- ☐ Make sure you lock every entry to your house even if you are only leaving for a short time.
- ☐ Use a simple door jam on a patio or deck door as extra security.
- ☐ Install simple motion detector lights.
- ☐ Keep trees and bushes trimmed and away from doors and windows.
- ☐ In case your home does get broken into keep your valuables OUT of your master bedroom. A burglar looking for valuables in a home will make the master bedroom their first stop.
- ☐ If you are unsure that your home is secure, call your local law enforcement and ask them to do a check of your home to see if it is secure.
- ☐ Burglars will sometimes ring your front doorbell to see if you are home, then go to your back door to break in. Make sure all of your doors are secure. Use a deadbolt lock on all entrances.

62%

OF THE ESTIMATED **2,199,125**
RESIDENTIAL BURGLARIES OCCUR
DURING DAYLIGHT HOURS

How Thieves Prefer To Get In

Burglars want to spend less than 60 seconds trying to break into a home.

Make your home look lived in when you are away. Make sure your lawn is taken care of, have your mail and newspapers stopped, put a T.V., light or radio on a timer to make it seem like someone is home.

Burglars gain access to your home through open or unlocked patio doors, windows and garages.

First stop for burglars is usually the **master bedroom** since most people keep their valuables there.

Burglars spend an average of **8 to 12 minutes** in a home.

AVERAGE LOSS PER BURGLARY: \$ 1,725.00 *

Homes without security systems are about three times more likely to be broken into than homes with security systems.

* 2005 statistic – SOURCE: Bureau of Justice Statistics; FBI Uniform Crime Reporting Program

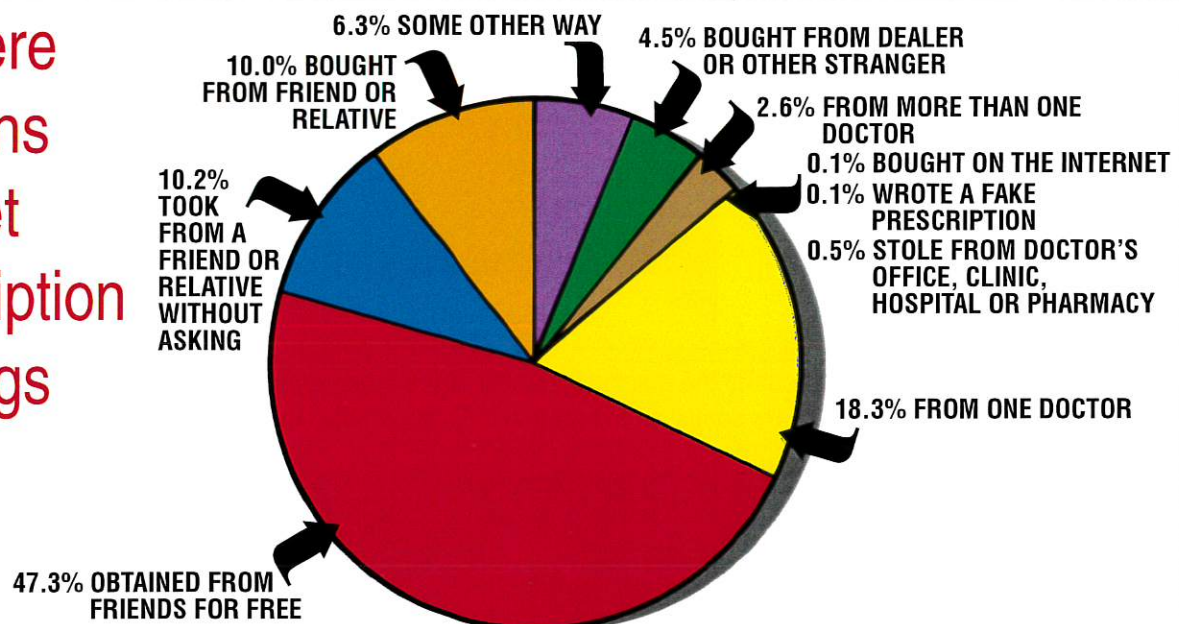

teen abuse of prescription drugs

Next to Marijuana, the most common drugs teens are abusing to get high are prescription and over-the-counter medications.

OxyContin and **Vicodin** are the most commonly abused prescription drugs by teens.

where
teens
get
prescription
drugs

A number of national studies and published reports indicate that the intentional abuse of prescription drugs, such as pain relievers, stimulants, sedatives and tranquilizers to get high is a growing concern – particularly among teens – in the United States. In fact, among young people ages 12-17, prescription drugs have

become the second most abused illegal drug, behind marijuana.

Types of Prescription Drugs Abused by Teens:

Cough & Cold Medications • Steroids
Pain Killers • Stimulants
Tranquilizers • Sedatives • Diet Pills

Nearly three out of 10 teens believe prescription pain relievers are NOT addictive.

Teens Feel Prescription Drugs are Safer Than Street Drugs.

So, above all.... **TALK TO YOUR TEENAGERS!**

What Can You Do To Help Prevent Your Child From Abusing Prescription Drugs?

- ☐ Keep track of your prescription and over the counter drugs
- ☐ Instruct your teenager on his / her prescriptions and usage
- ☐ For guidelines on safe and proper disposal of medications, visit www.nfp.org/safemeddisposal
- ☐ Ask friends and family to safeguard their prescriptions
- ☐ Properly conceal medicine
- ☐ Be a good role model for your teenagers and follow instructions yourself

“Pharm-Parties”

Teens drop an array of pills into a bowl, then pass around the “trail mix” for the partygoers to “graze”.

How Teens Get Prescription Drugs:

- ☐ Medicine Cabinets
- ☐ Parties - Friends
- ☐ On The Internet
- ☐ Forging Signatures
- ☐ Calling In A Parent's Prescription

What To Do If Your Child Already Has A Problem

If you suspect your teen is using drugs, do not wait to do something about it. Visit the Substance Abuse and Mental Health Services Administration at www.findtreatment.samhsa.gov for a listing of treatment centers in your area, or call 1-800-662-HELP (4357).

**Say NO To
Prescription
Drug Abuse...
Say YES
To Life!**

Talk to your teen and warn them of the dangers of prescription drug abuse.

Telemarketing Scams

The Law & You

Telemarketing Scams

One of the most popular ways to scam seniors is through the telephone.

Telemarketers offer fake prizes such as free vacations and jewelry. They also solicit for bogus charities.

Seniors tend to be the victims because they grew up in an era where they could trust people. Good folk were never rude and never hung up on anyone.

This Is The Law

Federal Trade Commission (FTC) regulations require the following:

1. You must first be told the company's name, and what is being sold.
2. If a prize is offered, you must be told right away that no purchase is necessary.
3. You must not be asked to pay in advance for services.
4. You must not be called before 8:00 a.m. and after 9:00 p.m.
5. You must not be called repeatedly or be intimidated by the caller.
6. You must be told the total cost before you are required to pay for products or services.

Avoiding Telemarketing Scams

- ☐ Don't talk to them. *Get an answering machine, caller I.D. or just hang up.*
- ☐ Take down the phone number and report it.
- ☐ If you want to give money to a charity, seek them out yourself.
Your State Police Department NEVER solicits over the phone.
- ☐ Get on the Federal DO-NOT-CALL LIST.
Call 1-800-DONOTCALL or go online and register at www.donotcall.gov

Con Games & Scams

Con artists are rarely violent. Once the con artist has gained your “confidence,” he/she will use it to get your money.

Some of the consumer con games to be aware of are:

- **Home Repair** - offers of free estimates and inspections
- **Debt Consolidation** - offers with high interest rates
- **Medical Fraud** - never buy “miracle cures”

If you feel uneasy about an offer or someone, trust your instincts. Check out the company or person by asking for references and ask to see their state licenses. Check with your local Better Business Bureau.

If the offer seems like it is “too good to be true,” it probably is.

SIGNS OF FRAUD

- **Must pay to win or must pay now**
- **Must decide now**
- **Pressure you for a credit card number**
- **They instruct you not to tell anyone**
- **Tell you that the initial investment will be well worth it**

JURY DUTY SCAM ALERT!

The phone rings, you pick it up, and the caller identifies themselves as an officer of the court. They tell you that you have failed to report for jury duty and that a warrant is out for your arrest. You say you never received a notice. To clear it up, the caller then says they'll need some information for “verification purposes”- your birth date, social security number, maybe even a credit card number. This is when you should hang up the phone. It's a scam.

The judicial system does not contact people by telephone and ask for personal information such as your date of birth, social security number, or credit card numbers. If you receive one of these phone calls, do not provide any personal or confidential information to these individuals.

To read more about this scam visit www.fbi.gov and type “jury scam” in the search box.

Child Identity Theft

Your child's identity can be stolen as early as 6 months...
more than 500,000 children had their identities stolen in recent years.

Your Child's Identity Can Be Stolen From Medical Records, an Obituary or a Social Security number.

IT CAN BE USED FOR:

- Immigrants seeking to establish an illegal identity
- Someone with bad credit trying to establish new credit
- Scam artists trying to make money off of YOU!!

WHAT YOU CAN DO IF YOUR CHILD IS A VICTIM:

- Contact credit issuers
- Keep a log with date, name, phone number & title of each person you speak with and summary of the conversation
- File a police report & request copies
- Consider changing your child's social security number

If your child hasn't worked, they shouldn't have an existing Earnings Report or Credit Report!!

7 Steps to Protect Your Child From Identity Theft

1. Disclose personal information carefully
2. Shred any paper with your child's social security number
3. Have all bank accounts require a photo ID and password for all transactions
4. Be wary of credit card offers in the mail
5. File complaints with the Federal Trade Commission (877-438-4338 or FTC.gov)
6. Check with the credit agencies to see if credit reports exist
7. Check for an earnings report from the Social Security Administration

Identity thieves target children because parents are unaware that their children are at risk...

LOCK YOUR CREDIT AWAY FROM IDENTITY THIEVES

FRAUD ALERTS

VS

CREDIT FREEZES

What are Fraud Alerts?

Consumers can put an electronic red flag on their credit reports at the three major bureaus:

Equifax, Experian and TransUnion.

Fraud Alerts are pretty easy to put in place.

All it typically takes to get a fraud alert is a phone call to each bureau.

Fraud Alerts can be ignored by lenders.

Lenders are required by law to take "Reasonable Steps" to verify the ID of anyone applying for credit in your name. "Reasonable Steps" is ambiguous – consumer advocates say **fraud alerts are too often ignored.**

A Credit Freeze is a way to block your credit reports – that makes it a lot tougher for an identity thief to get a loan or open a credit account in your name. While a freeze is in place, no one, not even you, can open an account in your name. Lenders, insurers and even employers doing background checks are not able to access your credit file. They will get a code saying your reports are frozen.

To Lift the Freeze:

In order for you to get credit, you have to call the bureaus, supply the PINs they gave you and the freeze will be lifted in 2-3 days, depending on the state.

To Get A Fraud Alert or Credit Freeze Go To A Credit Bureau Website Or Phone Them

www.experian.com

**FREEZING YOUR CREDIT IS THE MOST EFFECTIVE WAY TO
FEND OFF THIEVES. IT MEANS THAT NOT EVEN YOU CAN
OPEN A CREDIT ACCOUNT WITHOUT DELAY.**

Fire Prevention

- Fire Departments respond to fires every 23 seconds to nearly 2 million fires a year
- 3,010 civilian deaths per year
- Young children and seniors are at the highest risk
- #1 Cause of Home Fatalities: **SMOKING IN BED**

Where a **Smoke Detector** was present and operating,
80% of fires had **NO** fire-related deaths.

Smoke Detectors

- Test smoke detector batteries each month
- Change them at least twice a year, when you change your clocks

**Make an escape plan –
practice it with your family twice a year!!**

Agree on a meeting place

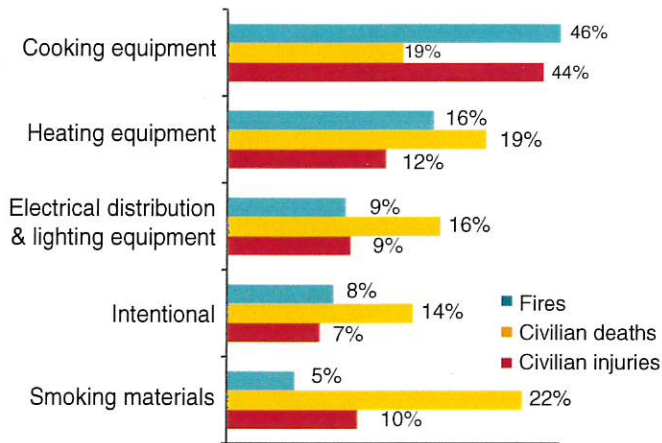

Never go into a burning building!!

**Prevention is the job of the Whole Family.
Everyone should participate in
making plans that may Save Lives!!**

FIRE FACTS

**Leading Causes of Home Structure Fires
2010 - 2014**

Home Structure Fires

Home structure fires caused 93% of the civilian fire deaths and 87% of the civilian fire injuries. Homes include one- and two-family homes, apartments, townhouses, row houses, and manufactured homes.

Cooking is the leading cause of home fires and home fire injuries.

Unattended cooking is the leading factor contributing to these fires. Frying is the leading type of activity associated with cooking fires.

More than half of all cooking fire injuries occurred when people tried to fight the fire themselves.

Smoking has been the leading cause of home deaths for decades. More than two-thirds (68%) of the home smoking material fire fatalities resulted from fires originating

with a) upholstered furniture, or b) mattresses or bedding. Flammability standards and decreases in smoking have helped reduce these deaths, but the "fire safe" cigarette will help prevent many more. Canada and all 50 states in the U.S. have passed legislation requiring cigarettes to be "fire-safe."

Heating equipment caused 19% of home fire deaths. Heating equipment ranked second in reported home fires and home fire deaths and injuries. Portable and fixed space heaters, including wood stoves, are involved in more fires than central heat. These fires are also more likely than central heating fires to result in death.

Intentional fires are the third leading cause of home fires. According to FBI statistics, roughly half of the people arrested for arson in recent years were under 18.

Electrical distribution or lighting equipment was the fourth leading cause of home fires. A study by the consumer Product Safety Commission (CPSC) found that homes with older wiring face an increased risk of electrical wiring fire.

Electrical factors can play a role in any fire involving equipment powered by electricity. Electrical failures were factors in 13% of home fires.

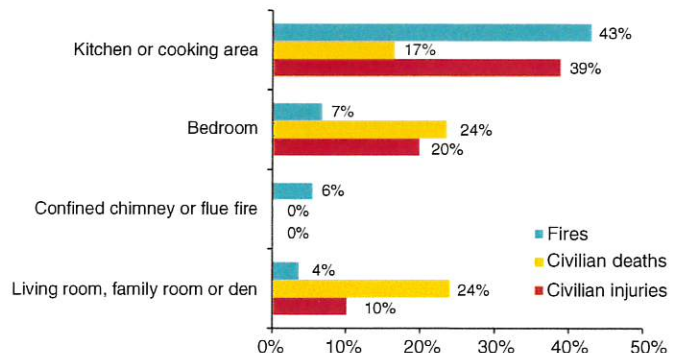

Candles were the fourth leading cause of home fire injuries. These fires nearly tripled from 1990's levels. Candles used for light in the absence of electrical power caused 1/3 of fatal candle fires.

Children under 5 are almost 8 times as likely to die in fires caused by playing with heat sources than are people of all ages.

Children under 5 and older adults face the highest risk of home fire deaths, but young adults face a higher risk of home fire injury.

**Leading Areas of Origin in
Home Structure Fires: 2010 - 2014**

*Information obtained from www.nfpa.org

Senior Safety

Secure Your Home Against Falls

1.6 million seniors were treated in emergency rooms for fall-related injuries. More than 1/3 of adults over age 65 fall each year. Among elders, falls are the leading cause of injury deaths.

Protect Yourself

Don't give out any personal information over the phone to anyone you don't know and/or trust.

Consider putting yourself on a no-call list to limit unwanted solicitations and protect yourself from possible scams. (see page 12)

Helpful Tips For Seniors

Use a buddy system so friends, family and perhaps a senior center know where you are and what you are doing.

Acquire a medical alert device so you can get help if you get injured and can't get to the phone.

Develop a home modification plan for independent senior living.

Let your police department know if you live alone... ask them to check in on you occasionally.

Inside Your Home

Clear pathways inside and out & make sure they're even and well-lit. Clear clutter from the floor, and make sure rugs are secure to the floor.

Doors — Be able to see visitors before you open the door. Install a garage door opener.

Stairs — Should have railings. Keep each staircase well-lit.

Bathroom — Use bath rugs with rubber mats, and walk-in showers with skid protectors on the floor and grab bars on the walls to prevent falling and slipping. Make sure the bathroom door can be unlocked from the outside.

As we age, we need more light to see properly. Add lights where you need them — some examples are inside stairways, halls and in the kitchen. Place nightlights where you traffic regularly.

Operation of Bicycles

Applicability of traffic laws to Bicycles

(a) General Rule: Every person riding a bicycle upon a roadway shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of a vehicle.

Riding on roadways and Bicycles Paths

(a) General rule: Except as provided every person operating a bicycle upon a highway shall obey the applicable rules of the road.

(b) Operation on shoulder: A bicycle may be operated on the shoulder of a highway and shall be operated in the same direction as required of vehicles operated on the roadway.

(c) Limitation on riding abreast. Persons riding bicycles upon a roadway shall not ride more than two abreast except on paths or parts of roadways set aside for the exclusive use of bicycles.

Bicycles on sidewalks and Bicycles paths.

(a) Right-of-way to pedestrians: A person riding a bicycle upon a sidewalk or bicycle path used by pedestrians shall yield the right-of-way to any pedestrian and shall give an audible signal before overtaking and passing a pedestrian.

(b) Business Districts: A person shall not ride a bicycle upon a sidewalk in a business district unless permitted by official traffic-control devices, nor when a usable bicycle-only lane has been provided adjacent to the sidewalk.

Bicycles helmets for certain persons.

(a). General rule: A person under 12 years of age shall not operate a bicycle or ride as a passenger on a bicycle unless the person is wearing a bicycle helmet meeting the American Standards Institute, for the Testing and Materials, the Snell memorial foundation's Standards for Protective headgear for use in Bicycling or any other nationally recognized standard for bicycle helmet approval. This subsection shall also apply to a person who rides:

(1) upon a bicycle while in a restraining seat attached to a bicycle or (2) in a trailer towed by a bicycle.

Let's Be Aware and Let's Be Safe.

TARRYTOWN POLICE DEPARTMENT

Secure Camera Registration

The Tarrytown Police Department announces the launching of the SecureCam Program in Tarrytown. The program encourages both private and commercial surveillance camera owners to register their security cameras with the Tarrytown Police Department to assist with crime prevention.

This will allow the Police to more accurately and quickly identify surveillance cameras that may have captured useful video footage of incidents that the Police are investigating.

You may cancel your registration at any time by clicking on the email link at
tarrytowngov.com/police

Pedestrian Information

WATCH YOUR WALK WAYS

Walk on sidewalks and in crosswalks whenever possible. It is important to pay attention to walk signals and keep a safe distance when standing on street corners. Trucks and buses make wide right turns and occasionally run up onto the corner of the sidewalk. It is important for you to be alert and to move back. Mostly likely, the truck driver will not see you or may be distracted and you could be seriously injured or killed if hit.

KNOW YOUR NO-ZONES

Be careful of the blind spots, or No-Zones, around cars, trucks, and buses when walking near or around them. Always assume the driver does not know that you are there. Because of a truck's large blind spots, a driver may not see, so it is up to you to avoid a crash. Never walk behind a truck when it is backing up; truck drivers cannot see directly behind the truck and could seriously injure you.

STOPPING DISTANCES

Use caution when crossing intersections and streets. You may think vehicles will stop for you, but they may not see you or even be able to stop. Remember, trucks, cars, motorcycles and bicyclists, all have different stopping capabilities. In fact, trucks can take much more space to stop than passenger vehicles. Never take a chance with a truck, even if the driver sees you he may not be able to stop.

MAKE YOURSELF VISIBLE

Wear bright or reflective clothing, especially when walking at night. Dressing to be seen will make it safer for you and drivers. Professional drivers do a lot of driving at night, and there's a good chance a driver will not see you if you don't make yourself visible. Carrying a flashlight is your safest bet for being seen at night.

AVOID DISTRACTIONS

Using electronic devices like cell phones and MP3 players while walking can increase your likelihood of being involved in a motor vehicle accident. Pay attention to your surroundings and avoid distractions. No plan or strategy guarantees your safety; all you can do is remain cautious and take no unnecessary chances. The more careful you are, the safer you will be. The very act of holding a cell phone can limit the visual field of view while crossing the roadway.

8 Ways to Avoid Getting Your Packages Stolen

1. Use Smart Package Lockers or Convenience Store

To avoid your Amazon package being stolen from your front porch, use Amazon Locker, a locker at a nearby convenience store or kiosk. You can also have your package delivered to a UPS Store, or purchase your own digital locker, such as BoxLock, which you can share with neighbors or friends.

2. Have Packages Delivered to an Alternate Location

If you know your friend will be home, have your package delivered to their address. Having your package delivered to your workplace is also a safe option.

3. Install Security Cameras to Prevent Package Theft

A visible security camera pointed at your front door, driveway or hallway will serve as a great deterrent for criminals and helps prevent package theft. The RLC-410 bullet security camera can capture package theft in broad daylight.

4. Get Amazon Key for Your Package Delivery

To secure package delivery, you could try Amazon Key which combines a smart lock and security camera that will allow delivery services to place packages just inside your front door.

5. Require Signature on Delivery

Many customers grumble about delivery persons leaving their packages out in the open on their porch or doorstep, making them desirable for a package snatcher. To prevent your package being stolen off of your porch or from your garage area, ask for signature delivery.

6. Track the Location of Your Package

If you are not sure whether or not you will be home from vacation to receive your package, you can track shipment information either on a package tracking app or order information in advance.

7. Require Vacation Package Hold

When going away for vacation or a business trip, you can place a hold on your package to keep your parcel safe. Many delivery companies such as USPS and FedEx offer a free service to uphold your package at their terminals or delivery centers for a period of time.

8. Insure Your Upcoming Packages

Insuring your precious holiday parcel, Halloween costume, birthday gifts or Christmas packages in the first place will guarantee you reimbursement if misfortune strikes and your delivery is stolen or lost before you lay your hand on it.
