Re: Tarrytown Waterworks Dam, DEC Dam ID#: 214-0271  
Class C – High Hazard Dam  
Tarrytown (V), Greenburgh and Mount Pleasant (T), Westchester County  
**Condition Rating: Unsound – More Analysis Needed**

Dear Mr. Slingerland:

Ayotunde Adebajo and I conducted a routine inspection of the Tarrytown Waterworks Dam, a High Hazard Dam, on Feb 7, 2022 as part of the Department of Environmental Conservation’s (Department) ongoing Dam Safety program. Donato Pennella and Mariana Reis accompanied us during the inspection. I am writing to you because it is my understanding that you represent the owner of this structure. A copy of my Visual Observations is enclosed for your information.

**Inspection**

The left/right nomenclature used in this letter and in the enclosed Visual Observation Report is based on looking downstream.

Deficiencies may exist beyond those identified here. The Department’s visual inspections are not intended to take the place of a comprehensive engineering evaluation by a professional engineer. The Department’s inspection observations and notes should not be relied on for “risk management/assessment” or other financially based determinations.

**Regulations**

The following table summarizes the current status of compliance for this dam for those sections of the regulations that have specific deadlines for compliance.

Citation	Requirement	Status
673.6	Develop and implement an Inspection & Maintenance Plan (I&M Plan). Plan does not have to be submitted to the Department	I&M Plan not requested during this inspection.

	but needs to be available for inspection if requested.	
673.7	Develop and distribute to the local emergency responders an Emergency Action Plan (EAP). EAPs should be updated on an annual basis. To be considered "final" a completed Promulgation and Concurrence (P&C) form must also be submitted indicating that the EAP has been distributed to and coordinated with local emergency responders.	EAP last reviewed in 2022.
673.8	Submit an Annual Certification (AC) to the Department January 31 of each year (certification is for the previous year). The Dam Safety Annual Certification form can be completed online through the NYSDEC eBusiness Portal at: <a href="https://www.dec.ny.gov/pubs/95925.html">https://www.dec.ny.gov/pubs/95925.html</a> .	An AC for the 2022 calendar year has been submitted.
673.13	An Engineering Assessment (EA) shall be performed, and an engineering assessment report submitted to the dam safety section, at a minimum frequency of every 10 years for dams that have been assigned a hazard classification of class B or C.	An incomplete EA dated July 2015 was received (2015 EA). An Addendum to the 2015 EA was received March 3, 2020. Comments for both documents were issued via my April 16, 2020 letter (2020 Letter).

**Condition Rating**

The Department assigned to the Tarrytown Waterworks Dam a Condition Rating of **"Unsound – More Analysis Needed"** in accordance with 6 NYCRR Part 673.16 via a May 10, 2019 letter from Syed Alam. The Condition Rating was due to lack of compliance with the Regulations and the missing slope stability analysis in the 2015 EA. The Condition Rating is still valid since responses to the comments in the 2020 Letter have not been received and the dam needs maintenance. This is a violation of 6 NYCRR Part 673.13 and ECL Article 15, Section 0507.

I received a letter dated June 27, 2022 from Donato Pennella with a schedule to address the violations noted in my December 16, 2021 letter. **Within 30 days of the receipt of this letter, please provide an update on your plan to rehabilitate the dam.**

Please keep in mind that any repair or construction activities related to the dam may require permits from the Department. Well before beginning work on the dam,

please check with the Regional Permit Administrator at the Department's Region 3 – New Paltz office at (845) 256-3054 to see if any permits are required.

If you have any questions, please feel free to contact me by phone at 518-408-0338, or by e-mail at [john.smith@dec.ny.gov](mailto:john.smith@dec.ny.gov).

Sincerely,

John Smith, P.E.

February 16, 2023

Dear Rich:

Enclosed are signed copies of the Initial Petition Requesting a Speed Hump Study on Crest Drive from Midland Avenue to Gunpowder Lane.

My wife and I have lived on the Crest since the early 80's. In the last few years, there has been a dramatic change in the demographics of the street with many young families moving there with lots of kids under the age of 10 - at last count 29. The kids play in the street with each other and friends.

We are all concerned that Crest Drive continues to remain a shortcut for many with buses and trucks using it on a regular basis, and we are afraid someone will be hurt if nothing is done.

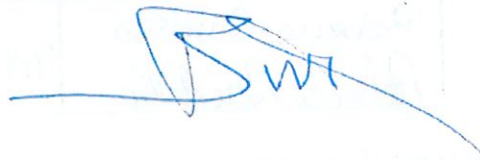

At this time, we are looking for:

1. Two-three speed humps
2. Lowering the speed limit to 15 mph
3. A No Through Traffic sign

Appreciate your consideration and cooperation in forwarding this to the appropriate people.

Please let me know if you need anything more.

Regards,

LOCAL LAW \_\_ - 2023

A local law to amend Chapter 251 entitled "Signs" to add a new provision prohibiting signs on public property

Be it enacted by the Village Board of the Village of Tarrytown as follows

**Section 1.** Amending Chapter 251 to add a new provision section 251-5.1 as follows:

**§ 251-5.1 Signs, posters and stickers prohibited on public property.**

- A. Declaration of policy. The Village Board hereby finds that the use of signs, posters, stickers and advertising devices along public roadways and on public property creates unreasonable distractions to operators of motor vehicles, creates confusion with regard to traffic lights, signs and signals, impairs visibility of pedestrians and motor vehicles, creates safety hazards to the public and, in particular, pedestrians, distracts from identification of surrounding businesses and home-house numbering and detracts from the aesthetic character of buildings, sites, districts and the Village as a whole. In addition, the Village Board finds that the undue proliferation of signs, posters, stickers or advertising devices located along public rights-of-way and on public property detracts from the established character of adjoining properties and of the neighborhood in which they are located and depreciates the values of said properties and neighborhoods. It is hereby found that removal of said signs, posters, stickers or advertising devices will promote the health, safety, morals and general welfare of the community in which they are located.
- B. Prohibitions. With the exception of any sign erected by the Village, county, state or other governmental authority and all signs pertaining to traffic regulations, parking regulations and fire zones which are subject to the rules and regulations of the New York State Vehicle and Traffic Law, no sign, poster, sticker, flag or advertising device shall be located within or upon the right-of-way of any Village road or highway or upon any Village owned land, or upon any utility pole, tree, fence, or any other structure or object thereupon.
- C. Removal of signs, posters, stickers or advertising devices authorized. The Superintendent of the Department of Public Works or his designee and Code Enforcement Officers, are hereby authorized to remove any sign, poster, sticker or advertising device placed upon any property owned by the Village of Tarrytown, including but not limited to Village roads, parks, land or Village rights-of-way or utility poles within the right-of-way.

**Section 2: Severability**

If the provisions of any article, section, subsection, paragraph, subdivision or clause of this local law shall be judged invalid by a court of competent jurisdiction, such order of judgment shall not affect or invalidate the remainder of any article, section, subsection, paragraph, subdivision or clause of this local law.

### § 251-1. Purpose.

- A. The purpose of this chapter is to promote and protect the public health, welfare and safety by regulating existing and proposed outdoor signs of all types and certain indoor signs. This chapter is intended to protect property values and create a more attractive economic climate; to protect and enhance the physical appearance of the community and preserve its scenic, man-made and natural beauty by ensuring that signage is appropriate to the character of Tarrytown and its commercial and industrial districts; to reduce sign distractions and obstructions that may contribute to traffic accidents; to reduce hazards which may be created by signs projecting over sidewalks or streets; and to regulate signs in a manner consistent with the legislative intent and purposes of the Tarrytown Zoning Code and the Landmark and Historic District Act.<sup>[1]</sup>
- [1] *Editor's Note: See Ch. 305, Zoning, and Ch. 191, Historic Districts and Landmarks.*

[Amended 9-21-1992 by L.L. No. 17-1992; 2-1-1993 by L.L. No. 2-1993<sup>[1]</sup>]

[1] *Editor's Note: This local law also repealed former § 251-3C, which immediately followed this subsection and provided limitations on the content of signs.*

## § 251-4. Sign permit requirements; exceptions.

- A. Permit. Except as provided in § 251-4G, no sign may be erected or displayed on a building facade, awning, on or within a window or a freestanding sign without first obtaining a sign permit from the Building Inspector. The Building Inspector shall not issue a sign permit for a sign that does not comply in every respect to this chapter unless a variance is requested and thereafter approved by the Architectural Review Board.

- E. Term of permit; renewal. A sign permit shall be valid for the period of time in which a business is conducted and the existing sign is not changed or modified in any way.
