**To:** Tarrytown Fire Department Board of Fire Wardens:

**Subject:** Janitorial service fee increase request for department firehouses from the Village Board of Trustees.

At our April 5<sup>th</sup> monthly meeting our membership discussed monies received from the village for janitorial services/facility upkeep. We all know this is a constant maintenance operation for each facility's rest rooms in a public/village building. It has been a number of years since the Village increased the annual janitorial stipend for each firehouse to \$1000.00. That amounts to \$83.33 per month. In addition to the additional maintenance that Covid 19 has had on all of us sanitizing our firehouses, we feel that an increase for janitorial services is well deserved and overdue.

Our membership requests that the Wardens ask the Village Board of trustees for an increase in the annual janitorial stipend for each firehouse.

Firematically yours,

*Bill Maher*

Foremost on the "to-do" list for volunteer fire companies in New York state are recruitment and retention of volunteer firefighters. FASNY and its organizational members have long advocated for the fire service on this subject, and provided grants, scholarships, and higher education funding opportunities, as well as innovative training programs designed to recruit and retain new members.

One product of FASNY's advocacy efforts includes a real property tax exemption for volunteer firefighters and volunteer ambulance workers. There is a brand-new law that extends this real property tax exemption statewide, as opposed to the previous collection of laws that applied to 30 counties only. The new law is Real Property Tax Law § 466-a, which is outlined below.

#### **The New Law – Real Property Tax Law § 466-a**

On Dec. 9, 2022, Governor Hochul signed legislation that creates an opt-in for all local governments to provide a 10% property tax exemption to volunteer firefighters and volunteer ambulance workers (L 2022, ch 670, § 1). The law took effect immediately and can be implemented by your local governments now.

Real Property Tax Law § 466-a allows for an exemption of up to 10% of the assessed valuation of the primary residence of volunteer firefighters and/or volunteer ambulance workers. The law allows each entity of local government (e.g., county legislature, city council, school board, town board, village board, board of fire commissioners) to adopt a local law opting into the exemption. Localities that currently provide the exemption under the existing law would be required to adopt a local law to conform to the new law.

To be clear, this partial tax exemption is not automatic. It requires a specific opt-in by each local government. Each local government can opt-in by adopting a local law or resolution. Once a local government opts in, application for the exemption by the volunteer is filed with the assessor, department or other office designated by the municipality, school district and/or fire district offering such [exemption on a form](#) ([https://www.tax.ny.gov/pdf/current\\_forms/orpts/rp466a\\_vol\\_fill\\_in.pdf](https://www.tax.ny.gov/pdf/current_forms/orpts/rp466a_vol_fill_in.pdf)) prescribed by the New York State Department of Taxation and Finance before the "taxable status date." It is important to note that the "taxable status date" in most towns is March 1. FASNY members should consult their local assessor for the specific date applicable to their jurisdiction, and act quickly to realize the benefits of this new law for the 2023-24 tax year.

FASNY members across New York should inform their respective local governments — at the city, village, town, part town, special district, school district, fire district and/or county levels — and work with local governments to deploy this partial tax exemption as a new recruitment and retention tool.

<b>General Note on Camp Fees:</b>	Simplification of camp fee structure is due to our plan to transfer Camp Registration over to our RecDesk Registration software. By using RecDesk to handle camp registrations, it will enable our department to more accurately track year-to-year registration numbers, communicate with parents more efficiently, and offer parents the convenience of being able to register for Camp online.
