## Village of Tarrytown Policy Directive

August 12, 2021

Due to the rise of COVID-19 infections caused by variants, right now most notably the Delta variant, in the best interests of the health, safety, and welfare of Village employees, volunteers, and the public, effective immediately and until further notice, the Village is reinstating an indoor mask mandate, regardless of vaccination status, for all who enter Village Hall and Village facilities.

- The public is required to wear a mask at all times when entering Village Hall and other Village facilities. This includes the Police department area, DPW facilities, Recreation Center, Senior Center and Fitness Center.
- At public meetings, masks are required at all times.
- Employees are required to wear a mask when not at their desk, when entering or gathering around Village Hall and other facilities, and when interacting with the public indoors. When seated in their own space and socially distanced, a mask is not required.
- When employees are working together indoors or more than one employee is inside a Village vehicle, masks must be worn.

We thank everyone for their cooperation and consideration of others during this difficult time of the ongoing COVID-19 pandemic.

Thomas D. Butler Jr., Mayor
