RE: PHASE VIIB - WATER MAIN REPLACEMENT MARTLING AVENUE

DATE: MARCH 15, 2024

Dear Resident:

The Village has contracted with Montesano Brother's Inc. to replace 3,000 linear feet of 4-inch water main on Martling Avenue that is beyond its useful life.

The work commenced on the intersection of Martling and Prospect Avenue with property delineation and test pits that will continue to 154 Martling Avenue. Construction is expected to take 8 weeks, depending on subsurface soil conditions. There will be intermittent water service interruptions while performing the necessary tie-ins to the existing water mains. Separate notifications will sent to you when this work is scheduled.

Your patience during construction is greatly appreciated. Once completed the project will provide improved water quality, fire flow and system redundancy.

Should you have any questions please call the Engineering Department at (914) 631-3668.

Donato R. Pennella, P.E.

Village Engineer/Building Inspector
